- 7 Year Warranty

Introducing Parmco's first induction freestanding stove—built for modern New Zealand kitchens where speed, control, and efficiency matter. Induction uses magnetic energy to heat cookware directly, meaning the pan becomes the heat source rather than the cooktop surface. The result is highly responsive cooking: it heats up quickly, holds steady temperatures with precision, and adjusts instantly when you change settings, making everyday meals faster and more consistent. Once you cook with induction, you won't look back.

A fast and reliable solution for your kitchen..

Impressive 7 Year Warranty

Note: 7 year warranty is for domestic use only.
