No; he needs to re-read it Joanna as there are 2 parts to the effective date. Please have him review again. Only certain items are 2 years out. Have him read the paragraph below the one that states it takes effect after 2 years. Its throughout the document side notes that indicate which parts take effect in 2 years... ALL OTHER parts of the Amendment took effect already in 5-14. I have attached the amendment.

We will need a new report as this one should have been tested to the specifics of Amendment 2 as there are a lot in the "contents" section that took effect from the date of publication which was 16-5-14 in NZ.

Dear Sheri,

I got our engineer reply. they said

They said, although AS/NZS 60335.2.11.2009+A1:2010 A2 published in 27<sup>th</sup> Jun 2014, but the required date is at 27<sup>th</sup> Jun 2016.

So at right now, we still can use this report. Please note that.

Hi Joanna;

No sorry this won't be a current enough report as I said before the testing standard did NOT include Amendment 2 and it is quite a detailed amendment requiring special testing.

Please have your engineer or compliance team review the 2<sup>nd</sup> amendment for AS/NZS 60335.2.11.2009 +A1:2010 and update the test report.

We will need this at your earliest convenience as my General Manager, Trevor Preston is wanting this compliance done at Sample stage.

主题: Compliance documents

Hello;

We are trying to make compliant the sample dryer you have documents to Trevor for the MDR70-VR031. The attached report supplied SHES141200625202 dated 29-4-15 states the tests were carried out according to the following standards:

AS/NZS 60335.2.11.2009 +A1:2010

This standard has a 2<sup>nd</sup> very important Amendment. A2 (most of) took affect 27-6-14. This should have been included in this report you sent dated 29-4-15. Also A3 that took affect 10-11-14.

Can we please get an updated report with A2 included. We can place a memo in the file for A3.
